## SEWP Overview

NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides Information Technology, Communications, and Audio-Visual (ITC/AV) solutions and services to Federal agencies and their approved contractors. SEWP is a Government-Wide Acquisition Contract administered by NASA and supports efficient Federal acquisition through an online quote-request process.

## Fair Opportunity

In accordance with FAR 16.505(b), contractors are provided a fair opportunity to be considered at the individual order level as appropriate, including through the NASA SEWP Quote Request Tool. The issuing procurement office is responsible for maintaining the documentation supporting order selection.

## About S2Alliance

S2Alliance Inc. is a Federal technology and professional services company based in Ashburn, Virginia. Under NASA SEWP VI, S2Alliance holds a Category C award for Mission-Based ITC/AV Service Solutions.

## How to Obtain a Quote

Federal customers may request quotes through the NASA SEWP Quote Request Tool or contact the S2Alliance SEWP VI Program Management team. Requests should include sufficient technical, schedule, delivery, and other acquisition information for S2Alliance to prepare a compliant response.

| Primary Quote Contact                                                          | Alternate Quote Contact                                                               |
|--------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|

## Order Issues and Post-Delivery Support

For installation questions, warranty matters, extended warranty questions, technical support, software support, delivery issues, or other post-delivery concerns, customers should contact the S2Alliance Program Manager or Deputy Program Manager listed above. S2Alliance will coordinate with the applicable product, service, or support provider as needed to address the issue.

**Problematic order troubleshooting:** Please provide the agency name, Delivery Order number, point of contact, and a brief description of the issue. S2Alliance will review the order information, coordinate with the appropriate parties, and provide status and resolution information to the customer.

## What's in Scope - Category C

S2Alliance's SEWP VI award is in **Category C - Mission-Based ITC/AV Service Solutions**. Category C supports mission-based technology service requirements. Customers seeking confirmation that a specific requirement is within SEWP VI scope may contact the NASA SEWP Help Desk.

## Ordering Process

|   |                                                                                                      |
|---|------------------------------------------------------------------------------------------------------|
| 1 | The Federal end user identifies a requirement and prepares a Purchase Request (PR).                  |
| 2 | The agency procurement office conducts the acquisition and may use the NASA SEWP Quote Request Tool. |
| 3 | S2Alliance reviews the requirement and submits a compliant quote or No Bid, as appropriate.          |
| 4 | The ordering agency evaluates responses and issues the Delivery Order (DO).                          |
| 5 | NASA SEWP PMO reviews, processes, tracks, and forwards the issued order to the Contract Holder.      |

## Important Ordering Notes

- S2Alliance may quote only products and services that are available under its SEWP VI contract when responding to an RFQ or Market Research Request, subject to the applicable SEWP contract rules.
- Each S2Alliance quote will clearly state the period for which the quote remains valid.
- Agency-specific procurement policies remain the responsibility of the issuing agency.
- Any modifications to a SEWP order must route through the NASA SEWP Program Management Office as required by the contract.
